**1 Tick the correct sentence in each pair.**

- 1 a Some people worry about the negative effects of mobile phones on brain.
 b Some people worry about the negative effects of mobile phones on the brain.
- 2 a We need to look at factors such as the availability of health care.
 b We need to look at factors such as availability of health care.

We use *the* before nouns which describe a general type of thing rather than a specific example of that thing:

*These are problems for students living away from **the family**.*

*We don't know the effects of such chemicals on **the body**.*

*The role of **the student** at university level varies greatly from country to country.*

*Most of our business is carried out over **the telephone**.*

The is also used before abstract nouns which describe a situation, a quality, a process or a change. These words are often followed by *of something*:

*There is a problem with **the availability of** clean water in some villages.*

***The distribution of** income is uneven in most countries.*

*On the whole, **the standard of** living is better in urban areas.*

*Many residents complained about **the frequency of** bus services.*

*This advance was brought about by **the development of** antibiotics.*

*He made a number of recommendations for **the improvement of** staff training.*

☆ We use *the development/improvement, etc. of something* to describe a general process of change, but *developments/improvements, etc. in something* to describe specific changes:

*We try to keep up-to-date with new **developments in** information technology.*

2 Correct the mistake below.

Doctors always stress importance of a balanced diet.
